Message from the Guest Editors

This Special Issue will deal with the forestry and wood processing aspects. In particular, in the field of forestry, the Special Issue invites research on genetics, forest roads, biomass, and main and byproducts of forests, log exploitation, primary processing of round wood, quality of exploited, wood and the role of forest and forest ecosystem on the environment. Regarding the wood processing part, this Special Issue will receive works on cutting round wood in timber and veneers, wood processing to obtain furniture, parquet, doors and windows, wood biomass including briquettes and pellets, thermochemical treatments of wood, antique wood, finishing processes, restoration activities of cultural heritage objects, and wood-based composites.

- tree genetics
- forest management and exploitation
- forest biomass and by-products
- primary log processing
- timber and veneers technologies
- furniture, parquet, and doors technologies
- briquettes and pellets
- wood finishing and coatings
- wood restoration, preservation and conservation
- thermo-chemical wood treatments
- wood composites
- antique wood

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Timothy A. Martin

School of Forest Resources and Conservation, PO Box 110410, University of Florida, Gainesville, FL 32611-0410, USA

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, AGRICOLA, AGRIS, PaperChem, and many other databases.

Journal Rank: JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
